1. NATURE OF OPERATIONS AND GOING CONCERN

Grounded Lithium Corp. (“Grounded” or the “Company”) was incorporated on October 26, 2020 by Certificate of Incorporation issued pursuant to the provisions of the Business Corporations Act (Alberta). The Company’s principal business is the acquiring, exploring and developing of mineral properties in Canada, with a specific focus on lithium. The development of these assets includes processes to purify and recover lithium metal directly from brine liquids. The Company owns and controls approximately 64,416 net hectares with plans to selectively grow this land position through subsequent transactions.

The head office is located at Suite 1200, 112 – 4th Avenue S.W., in Calgary, Alberta and our registered office is at Suite 4000, 421 – 7th Ave SW, Calgary, Alberta.

Going Concern

These financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards (“IFRS”). The going concern basis of presentation assumes the Company will continue to operate for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The Company is in the exploration stage and has not earned revenue from operations. During the period ended June 30, 2022, the Company incurred a net loss of $1,192,996 and had net cash used in operating activities of $1,035,597. In addition, the Company has a deficit of $1,569,606.

The above factors indicate that a material uncertainty exists that may cast significant doubt about the Company’s ability to continue as a going concern. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. This assessment is based upon planned actions that may or may not occur for a number of reasons including the Company’s own resources and external market conditions.

The Company’s ability to continue as a going concern, realize its assets and discharge its liabilities in the normal course of business, meet its corporate administrative obligations and continue its exploration activities in the 2022 fiscal year, is dependent upon management’s ability to obtain additional financing, through various means including, but not limited, to equity financing. No assurance can be given that any such additional financing will be available, or that it can be obtained on terms favourable to the Company.

These financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis were not appropriate for these financial statements, then adjustments would be necessary to the carrying amounts of assets and liabilities, the reported expenses and the classifications used in the statements of financial position.

COVID-19

The novel coronavirus (“COVID-19”) outbreak was declared a pandemic by the World Health Organization on March 11, 2020. This has resulted in significant economic uncertainty and governments worldwide are enacting emergency measures to contain the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global financial markets have experienced significant volatility and weaknesses as a consequence of this economic uncertainty. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the effectiveness of interventions by governments and central banks. The full extent of the impact on the Company’s future financial results is uncertain given that the length and severity of these developments cannot be reasonably estimated.

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

These condensed interim financial statements are unaudited and have been prepared in accordance with IAS 34, "Interim Financial Reporting". The condensed interim financial statements do not include all the information and footnotes required by IFRS for a complete set of financial statements. The condensed interim financial statements have been prepared using the same accounting policies and methods of computation as disclosed in the Company's December 31, 2021 financial statements except as stated below and should be read in conjunction with those financial statements. The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results may differ from these estimates.

For corporate assets, depreciation is recognized in profit or loss on a 20 to 33 percent declining balance basis, depending on the nature of the asset as follows:

Office furniture and equipment	20 percent
Computer equipment	25 percent
Computer software	33 percent

Depreciation methods, useful lives and residual values are reviewed at each annual reporting date

The condensed interim financial statements were authorized for distribution by the Company's Board of Directors on August 22, 2022.

b) Share-based compensation plans

Stock Option Plan

The Company's Board of Directors ratified a stock option plan ("the Plan") on November 30, 2021 for the benefit of the directors, officers, employees and consultants of the Company. The maximum number of options available under the Plan is limited to 10% of the issued and outstanding common shares on the date the option is granted, with the maximum number of options available to an individual director, officer or employee not exceeding five percent, or consultant not exceeding two percent, of the issued and outstanding shares. Such options will be exercisable for a period of up to five years from the date of grant, at an exercise price and vesting period as determined by the Board of Directors.

Compensation costs attributable to stock options granted are measured at their fair value at the grant date and are expensed over the expected vesting time-frame with a corresponding increase to contributed surplus. Upon exercise of the stock options, consideration paid by the holder thereof together with the amount previously recognized in contributed surplus is recorded as an increase to share capital.

The following table summarizes the activity under the Company's stock option plan:

	Six months ended June 30, 2022		Inception to December 31, 2021

8. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

As at June 30, 2022, the Company's financial instruments include cash, receivables, trade payables and accrued liabilities. Cash and receivables are classified as financial assets at amortized cost. Trade payables and accrued liabilities are classified as amortized cost. The carrying value of these financial instruments approximates their fair value due to their short-term maturity.

The Board of Directors oversees management's establishment and execution of the Company's risk management framework. Management has implemented and monitors compliance with risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

The Company's financial instruments are exposed to credit risk, liquidity risk and market risks.

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk with respect to its cash and receivables. The Company minimizes its exposure to credit risk by placing its cash with Canadian Schedule 1 chartered banks. As at June 30, 2022, the Company had unrestricted and restricted cash of $2,009,843 (December 31, 2021 $2,328,235).

The Company's secondary exposure to credit risk is on its receivables. The risk is minimal as the receivables consist only of the refundable input tax credit. As at June 30, 2022, the Company had a receivable of $15,277 (December 31, 2021 - $7,246). The Company did not have any allowance for doubtful accounts as at June 30, 2022 and did not provide for any doubtful accounts nor was it required to write-off any of the receivable during the period ended June 30, 2022.

As at June 30, 2022, all of the Company's accounts receivable were under 90 days in age and considered collectible.

Aging		
Current (less than 90 days)	$	15,277
Past due (over 90 days)		-
Total	**$**	**15,277**

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Grounded's financial liabilities on the balance sheet consist of accounts payable and accrued liabilities. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company tries to achieve this by maintaining sufficient cash to cover current liabilities as they mature.

As at June 30, 2022 , the Company had a working capital surplus of $1,829,712 (December 31, 2021 - $2,190,625). At June 30, 2022, the Company had a cash balance of $ 2,009,843, which is sufficient to pay its current liabilities of $376,923, and to continue operations through 2022.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements as of June 30, 2022:

	Carrying amount	Contractual cash flows total	< 1 year	1 – 2 years	2 – 5 years	More than 5 years
